SCHOOL AND COMMUNITY   http://www.carrollk12.org

Carroll County Public Schools are located near both the Baltimore and Washington, D.C. metropolitan areas. The region can best be characterized as a rural area, rapidly becoming suburban. Today, over 25,200 students are enrolled in our schools, ranking us as the 10th largest school system in the state of Maryland. We are comprised of 8 high schools, including the Carroll County Career and Technology Center.

The Carroll County Public School System (CCPS) ranks as one of the top-performing school systems in the state of Maryland. Carroll County students consistently score above state and national averages on standardized student assessments. Carroll County also has one of the highest graduation rates and lowest dropout rates in the state. These factors, combined with the success of the outstanding Career and Technology Program, the support of the business community, and the involvement of parents in the county, help Carroll County to produce students who are college and career ready.
